

Commands ex Shanghai Moon Bay Colt

Trainer Report

The second Commands colt we have purchased this season and each week I get more comfort through the deeds of this stallion on the track. This colt stood out when I inspected the easter sale horses and was relieved to be able to secure him for syndication.

He is so strong and possesses such a fluent action to the way he moves, he almost glides along. I think he will get ground and be better at 3 and 4 years. He looks a great prospect for racing.
