

ROCK OF GIBRALTAR ex REGAL PROSPECT FILLY

TRAINER REPORT

We bought the **Rock of Gibraltar** filly at the Sydney Inglis Classic Sale, with a view to having her ready for the Classic race next January. She is a strong and very forward filly, and has more development physically than we normally see from daughters of Rock of Gibraltar.

The stallion can throw a good filly and certainly throws them with speed which is what we want. The Danehill/Bluebird cross recently produced Gr 1 winning mare Russeting. It is a very good running family of SW's Facile Tigre, Stormcat Academy, Reflected Image and Fighter Jet. Bluebird mares are doing a great job at stud and he is the sire of the dam's of Universal Prince, Metal Bender, Thorn Park, Yell and more recently Montana Flyer.

She has a good stride and should be precocious enough to get to the track nice and early being an early September foal. The vendor wanted to stay in for a share which was a positive sign for us.
